Online Organizing

If you are reading this, it probably means that you have a desire to become more organized in your life, and you know that enlisting a professional organizer is a great way to start!

When many people think of enlisting a professional organizer, they envision a full in-person visit, which is the traditional and most common way to get organized.

But what do you do if you:

- Live outside of the normal service area for a professional organizer but still want help with an organizing project?
- Feel like you are already fairly organized and don't need a full in-person visit, but think you could still benefit from a few brief consultations with an expert about organizing your home or office?
- Prefer to do your own hands-on work, either because you are on a more limited budget or can only devote time to your project during non-business hours, but you still need ideas on where and how to start, and guidance from time to time along the way?

The answer is: **Online Organizing!**

Online Organizing is a great way to get a customized, personal consultation, because we interact in real-time over Skype: you can show me problem areas of your home or office, and I can offer solutions that you can implement on your own.

You may find that you only need a single half-hour session using this approach. Or you may prefer a longer session, or a series of sessions, depending on the size and nature of the project. In other cases, you may choose to have an initial online session as a first "meeting" to discuss and plan for an organizing project, followed by in-person visits to carry out organizing plans.

No matter what your circumstances, **Online Organizing** is a great way to tailor my professional organizing services to meet your individual needs!

Booking your Online Organizing session is easy – here's how to do it:

1. **Skype** - Online sessions require you to have Skype software installed on your computer or phone. Skype is free and easy to download. If you do not already have it you can get it [here](#).

2. **Contact Me** - Call or email me with your name, address, Skype username, and a description of your organizing project and/or goals (pictures are helpful!). If you already know your preferred dates and times for your appointments, that info would be great as well!

3. **Payment** - Once we have established a date and time that works, payment in advance through [Paypal](#) is required to confirm your session. My fee for Online Organizing consulting is \$50 per 30 minutes.

Contact me today to see if Online Organizing is for you.
